

CNG Electronic Pressure Regulator for the MAGNA STEYR Full Integrated high Pressure Storage system

Picture Source MAGNA STEYR

DESCRIPTION

- Full Integrated CH₄ Storage System for Natural gas / bio methane
- All high pressure components included pretested assembly
- Ready to rail

FEATURES / SPECIFICATIONS

- 3 pressure storage vessels 200bar
- Type IV, full composite GFK (CFK)
- Storage volume of 14,0kg
- Electronic Pressure Regulator by VENTREX Automotive

- Module weight: 52,7 kg (37,0 kg)
- Capacity (volume): 85l
- Capacity (energy): 196kWh
- Storage density: 0,62kg/l (0,44kg/l)
- Energy density: 3,72 kWh (5,30kWh)
